ENGINE DETAILS

028 Engine Details

TURRET INTERIOR DETAILS

In the turret rear part is the place for communication/wireless equipment. Because this radio is the same as that in the Fox presented in this book, details are shown in the Fox Turret Details chapter in the second half of this publication.

Turret Interior - Rear 047

GM Fox Mk. I

The steering wheel is very similar to those used in early GMC CCKW trucks. On the dashboard are standard US instruments and the position of the 5 main instruments and board lights are the same as on the GMC trucks. The large wartime fire extinguisher is connected to the fire suppression system in the engine compartment. On the left side are details of the steering box, clutch and brake master cylinders.
