### Decal Placement

If it is hard to determine the exact colors of the markings due to poor quality of printed photographs, however some images seem to describe the 50/50 emblem in green, 50 color in other possibilities, both green and black versions are provided in this set. At the same time, a green emblem coupled with black arabic numbers is also possible.

**(V150 ambulance armed with 50 cal - turretless)**

**(V150 ambulance armed with 50 cal capola)**

**(early version V150 ambulances armed with 50 cal - turretless)**

Note: Markings to be applied to both sides of the vehicles and also the rear (refer to the rear illustration for rough placement). No markings on vehicle front except for maintenance versions (early version V150 ambulances armed with 50 cal - turretless).

Even number of camouflage colors is preferred. 50/50 markings are generally high-contrast. Marker over decalations is advised.

Some markings very likely applied to sides and front as well.

This set also comes with generic arabic numerals 0-9 and crescent for further customization of markings.
