Montex masks for painting cabins and stencils for distinctive paintings are sold under a common name Pastic Model Club and are divided into three series:

MINI MASK (**SM**) - contain masks for painting cabins;MAXI MASK (**MM**) - contain masks for painting cabins and stencils for distinctive paintings: national emblems and tactical and functional symbols (bows, crosses, stars, letters, numbers, chevrons etc.)SUPER MASK (**K**)- contain masks for painting cabins and stencils for distinctive paintings based on photos and other primary sources. Super Mask series also contains colour airplane drawings in four projections depicting the placement of the paintings.

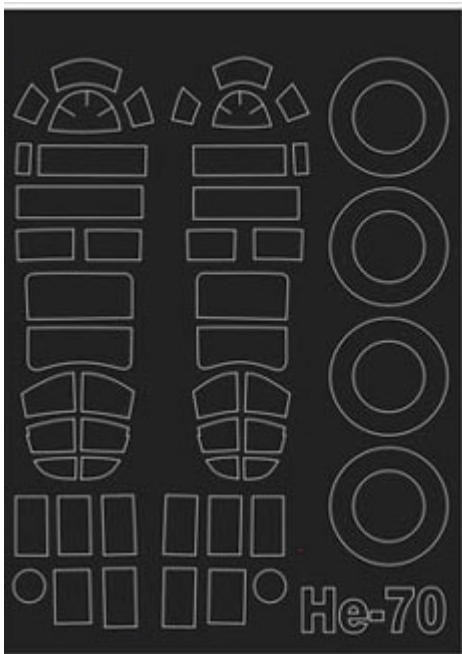

## ADDITIONAL INFORMATION:

The masks for cabins are produced of high quality black matt foil, which contrasts with the glazing of the cabin and is easily applied. The glue we use is strong enough not to let the masks deform on oval and curved surfaces. Thanks to special design of the masks the need of using 'Maskol' is reduced to minimum.

The worldwide innovation we introduced is the production of masks for painting the cabins' interior.

**Important information for customers:**

The Jadar-Model manages two shops. One of them is internet shop (virtual), while the other is "real" and is placed in Warsaw, Poland's Capital. The same sort of models is offered by both shops. As we have large offer, we have no sufficient storage place with great number of the the same items to supply both shops simultaneously. It's highly possibly, that item you wish to buy in internet shop was just sold in our "real" shop. In such case we will inform you by mail that we have to restock the storages and your order will be fulfilled a little bit longer since we are awaiting for producer's delivery. Please by patient.

**If you are login to our shop as non-European Union resident all prices are visible without VAT Tax!**

(23% discount for models, accessories and paints bought in our shop)

For Polish made books and modeling magazines the VAT tax is 5 %.
