### J's Work PPA3030 1/35 Silikonowa forma - Trylinka drogowa (mała)

Narzędzie niezwykle przydatne dla budowniczych wszelkiego rodzaju makiet w skali 1:35.

Forma silikonowa do samodzielnego wykonania elementów dioramy. Jedyne co potrzebujesz to trochę wody, gips i jakiś barwnik, który nada oczekiwany przez siebie kolor (np. farba plakatówka)

Producent: **J's Work** (China)

# INSTRUCTION

**1**  
Material and tools:  
J's Work Silicone Mold,  
plaster powder, acrylic  
colour, water, old brush,  
paint stirrer.

**2**  
Add water into acrylic  
color and then mix  
with plaster powder.

**3**  
Mixing up the color  
water and plaster  
powder in a sticky form.

**4**  
Add acrylic colour into  
plaster if you are not  
satisfy with the color.

**5**  
Use an old brush to  
paint the plaster on the  
Silicone Mold to ensure  
the plaster are evenly  
distributed.

**6**  
Pour the plaster on the  
Silicone Mold, make  
sure the plaster are  
smoothly distributed  
on the Silicon Mold by  
paint stirrer.

**7**  
Put the Silicone Mold  
flat on the table,  
punching the table by  
hand to clear out the  
bubble inside the  
plaster.

**8**  
Take out the finished  
product from the  
Silicone Mold when the  
plaster are fully dry.  
Clean the Silicone Mold  
by water for recycle use.
