HOBBY BOSS

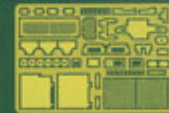

100% NEW TOOLING!

In the middle of the '80s Högglunds started the development of a new family of Combat Vehicles called Combat Vehicle 90 for the Swedish Army. Five prototypes were delivered in 1988 and were tested during extensive trials for three years. In March 1991, the Swedish Army placed the first series production order for the Swedish Combat Vehicle 90 Family. The first deliveries started in 1993, and now over 500 CV90's have been delivered to the Swedish Army, with final delivery in 2002.

CV9040 is in service with the Swedish Army. It carries an eight man section is designed to defeat other armoured vehicles and ground troops. It is fitted with a Bofors 40 mm cannon. The CV9040 is primarily deployed with the Main Battle Tank in the Swedish Mechanised Brigades. The CV9040C has stabilised turret.

Kit consists of over 567 parts on 20 sprues including hull and 49 parts photo-etched upgrade parts.

Dimension of completed model: Length: 203.9 mm. Width: 111.7mm

Accurate decals and PE parts.

Turret hatches and periscopes can be assembled open or closed.
