Item No. 5156

User Guide

1 Select suitable Airbrush Camo-Mask for the model. Spray the first camouflage color on model. In order to make the spraying procedure smoothly, suggest using Airbrush Camo-Mask marked with asterisk (★) to be the first camouflage color.

2 Suggest using Mask marked with asterisk (★) inside the Airbrush Camo-Mask to be the first Mask adhere on model. Position lines have been marked on the Mask which can help to fix the position.

3 Please follow the color guide to complete the procedure of using the Airbrush Camo-Mask.

4 Use scissor or cutter to cut the Airbrush Camo-Mask if it cannot be adhere on the unflattened area of model. Then, use tape or liquid mask fill up the gap.

5 The liquid mask can be used to fill up the gap between the first and second color of Airbrush Camo-Mask.

6 Adhere the Airbrush Camo-Mask on wheels after spraying the outer ring of wheels in black color. Then, spray the color on wheel. (If this Mask is included in the kit).

7 Remove all the Airbrush Camo-Mask after spraying the last camouflage color on model.

8 Spot-Pattern Masking Paper can be used for spraying the spot pattern (if Spot-Pattern Masking Paper is included in the kit)
