ISRAELI AIR FORCE PAINT SET (MODERN JETS)

Standard colours of Israeli planes since late 1970s

The so-called "1970's desert scheme" introduced in July 1967 remained in use on various IAF aircraft (incl. F-4s and A-4s) till their withdrawal from service. At the same time the "Air Superiority Grey" scheme was introduced from the US. The latter scheme, which was brought into IAF use, brought new painting schemes into IAF use.
